

Core Courses required of all students

- Intro to Plant Biology (16:765:501)
- Plant Physiology (16:765:502)
- Advanced Plant Systematics (16: *215: 507) (Listed under Ecology & Evolution)
- Plant Molecular Biology (16:765:513)
- Principles in Plant Pathology (16:765:532)

Track Course Requirements required of students in a particular track

Plant Biology Track	Course Title	Course Number
Horticulture and Plant Technology	Applied Plant Science Statistic	(16:765:522)
Molecular and Cellular Biology	Advanced Plant Genetics	(16:765:510)
Organismic and Population Biology	Methods in Plant Systematics	(16:765:503)
Plant Pathology	Plant Pathogenesis	(16:765:538)

Other Course Requirements

- At least one course credit of “Seminar in Plant Biology” is required of all students
- Core Seminars in Plant Biology I & II are required of all students
