

# Plant Biology Seminar Series - Spring 2002

Fridays, 11:30 AM, 138 Foran Hall, Cook Campus

<u>Date</u>	<u>Speaker &amp;</u>	<u>Topic</u>	<u>Host</u>
Feb. 8	Nyree Zerega,	New York Botanical Garden AFLP-DNA Fingerprinting as a Tool for Quality Control in the Botanicals Industry: a Case Study in Black Cohosh, <i>Actaea racemosa</i>	L. Struwe
Feb. 15	Michael Eskin,	University of Manitoba Yellow Mustard Gum: A Sticky but Interesting By Product	C. Frenkel
Feb. 22	Dr. John Kiss,	Miami of Ohio Space the Final Frontier...for Investigation of the Sensory Mechanisms Involved in Root Phototropism	R. Triemer
Mar 1	-		
March 8	David Fleisher,	Rutgers University Phytomation - A Blend of Plant Biology and Engineering	B. Huang
Mar 15	-		
Mar 22	XXX	<b>** Spring Break **</b>	
Mar. 29	-		
Apr 5	Brenda Winkel-Shirley,	Virginia Polytech Organization of Arabidopsis Flavonoid Metabolism as a Multienzyme Complex	J. Polashock
Apr 12	Nancy Eckardt,	The Plant Cell Alternative Careers in Science: Beyond the Bench	CROPS
